By offering **CarePages**, Methodist Le Bonheur Healthcare can bring friends and family together to support and uplift someone facing a health event. The CarePages online service, which can be accessed through any Internet connection, anytime anywhere, allows patients and families to communicate with relatives, friends and supporters, when the time is right for them. They can also post updates, visiting hours, and share photos. Friends and loved-ones can be

kept up-to-date on the patient's condition and even send messages of support. Visitors to the site can also sign up to receive an email notification any time an update is submitted.
